Purpose:

The purpose of the project is to test all areas and functionalities of the app, starting from the app introduction, registration, sign-in, testing two kinds of profiles, customer and professional and to make sure both work and function properly.

While we could've done thousands of test cases, we wanted to make sure we make the best out of each area, while paying attention to our deadline.

Overview:

Gigit is a mobile application that allows to upload a task or a service, with no need to be recognized or approved as a certified professional.

Everyone can upload a gig, and everyone can offer himself to do the uploaded gig.

In addition, there is also an option to register as a business user by opening a business account and offer services according to your business.

Tools:

During the making of the project, we used several tools to make the most out of it, both technically and aesthetically.

This allowed us to become more efficient and effective in our work.

The following tools were used:

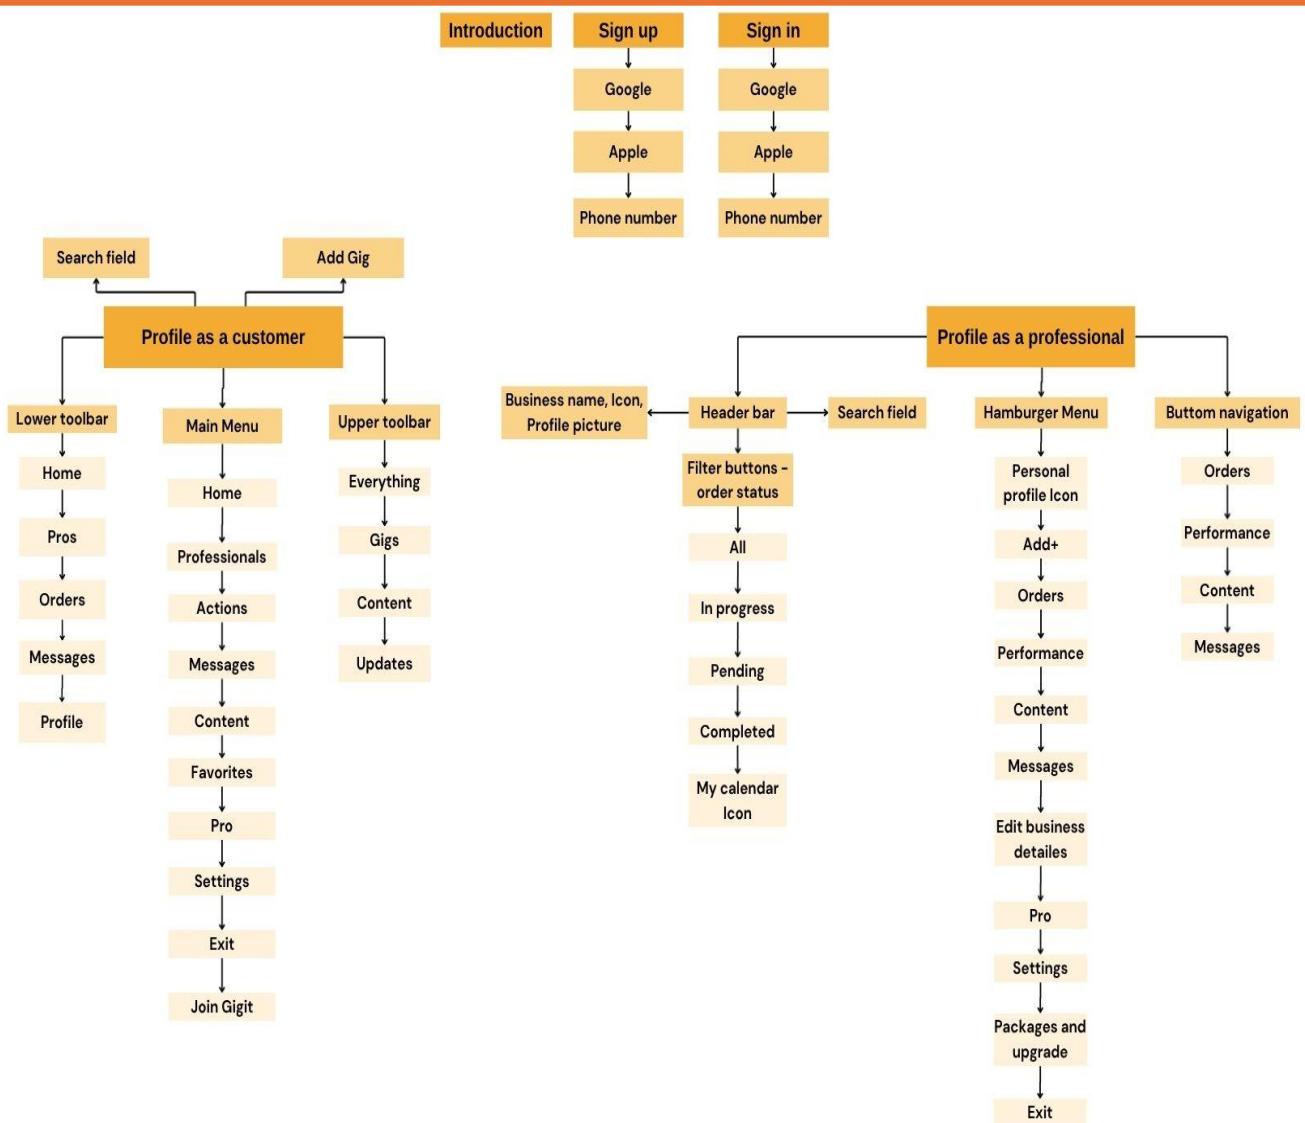

ChatGPT- to get ideas for more test cases, including special and out-of-the-box ones.

TestRail- to organize all test cases to categories, sub-categories and test types.

Jira- for bug reporting and detailed documentation.

Canva- for esthetic cover page and table of content.

Tests tree

Non-Applicable tests:

During the test runs, several test cases could not be executed due to unavailable resources and tools.

The following are some of the test cases that weren't executed and the reasons:

1. **Test case:** “Check that the app is installed successfully on an iPhone device”.

Reason: The app hasn't been released to iOS devices yet.

2. **Test case:** “Check that app can be upgraded to a higher version”.

Reason: The app only has one version available as for now.

3. **Test case:** “Check that the app can be installed on a device with low memory”.

Reason: No device with low memory was at hand reach.

Test types in scope:

- Functional
- Usability - UI
- Usability - UX
- Interruption\Notifications
- Phone interfaces
- External interfaces (Google)
- Installation\Uninstall
- Performance

Test types out of scope:

- Compatibility
- Security
- Accessibility
- Payment and money transfer
- Localization

Test Areas:

- **Introduction**
- **Sign up**
 - Google
 - Apple
 - Phone number
- **Sign in**
 - Google
 - Apple
 - Phone number
- **Profile as a customer**

Bugs Summary

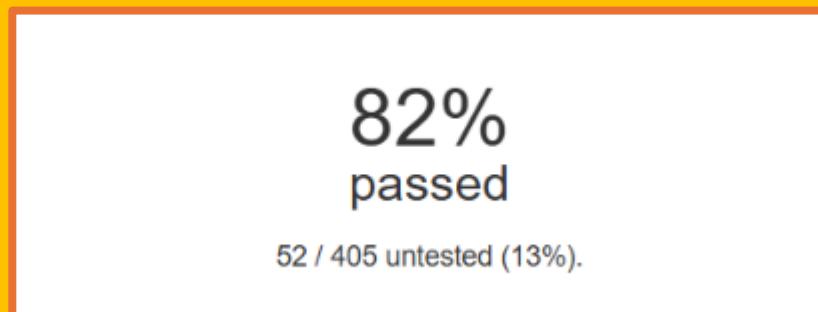

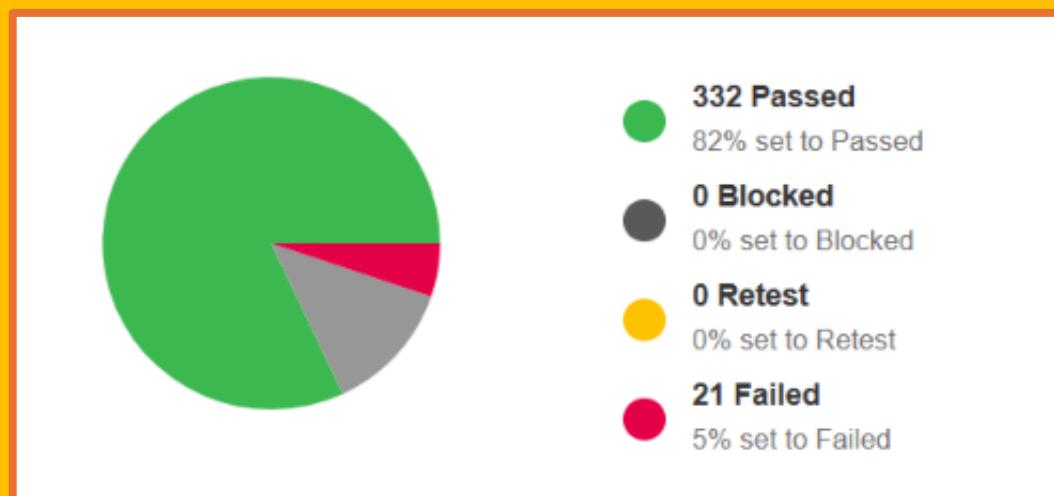

After coming up with over 400 test cases, we have found a total amount of **21** bugs with different severities.

Fortunately, we were glad to find out that the majority of the bugs (15) are considered as **Low severity**.

15 bugs out of 21 overall makes it **71%** of the bugs as Low severity.

The following table shows the distribution of all bugs according to severity:

Severity	Low	Minor	Major	Critical
Closed	0	0	0	0
Opened	15	4	2	0

Screenshot of bugs from Jira

The screenshot shows the Jira interface for the 'STR Project - Gigit' project. The left sidebar includes links for 'For you', 'Recent', 'Starred', 'Apps', 'Plans', 'Spaces', 'Recent', 'Test', 'Demo service project', 'More spaces', 'Filters', 'Dashboards', 'Operations', 'Assets', 'Teams', and 'Customise sidebar'. The main area displays a list of bugs with the following details:

SPG-13 System allows to paste emoji in phone field o...	Unassigned	Shai Rakhminov	Low	Medium	TODAY

Recommendations

- The app doesn't seem to offer any accessibility features.
This could make it difficult for users with disabilities to use the app, potentially excluding a significant group of people and negatively effecting potential revenue.
- At some cases, the error messages doesn't describe clearly the root cause of the experienced issue, but shows just a **general error**.
Error messages should be more specific and clear.
- Error messages are often shown in **up to 1 min** delay.
- At some places, there are spelling errors and GUI issues that should be fixed
- The app's overall stability must be improved, especially in sign in and sign up pages.

Exit criteria

- Should not be more than 7 bugs with Major severity - **Yes**
- No Major and above severity bugs were found in the last 7 days - **Yes**
- Should not be bugs with Critical severity at all - **Yes**
- The app should be able to work properly and stable on it's main functionalities - **No**
- All discovered bugs must be checked - **Yes**

Conclusion

After carefully reviewing all discovered bugs, going through the app's main functions and even though we have found only 2 bugs with Major severity, We have decided to **Not release** it.

Despite of the app seeming to be intuitive and convenient to every user, the app has to go through major fixes and make it much more stable and reliable, in addition to important GUI fixes which currently doesn't show the app in a good light.

T146	Check that the Google icon on the ""Sign up with Google"" button clearly represents the option to	Shai Rakhminov	Usability - UI	Passed

	sign in with a Google account			
T147	Check that the Google icon on the ""Sign up with Google"" is in a proportional size	Shai Rakhminov	Usability - UI	Passed
T148	Check that ""Sign up with Google"" box looks the same as the other sign up boxes	Shai Rakhminov	Usability - UI	Passed
T149	Check that the distance between ""Sign up with Google"" and the Google icon is proportional	Shai Rakhminov	Usability - UI	Passed
T150	Check that the distance between the Google sign up box and the Apple one is proportional	Shai Rakhminov	Usability - UI	Passed
T56	Check that when you type your first name in ""First name"" field, the name appears in the field	Shai Rakhminov	Functionality positive	Passed
T57	Check that when you type your last name in ""Last name"" field, the last name appears in the field	Shai Rakhminov	Functionality positive	Passed
T58	Check that when you type your phone number in ""Phone"" field, the phone number appears in the field	Shai Rakhminov	Functionality positive	Passed
T59	Check that when you click on ""Sign up with phone number"", you are prompted to sign up with phone number	Shai Rakhminov	Functionality positive	Passed
T233	Check that on registration after inserting a phone number longer than 10 digits, you are able to register after correcting to 10 digits phone number - bug	Shai Rakhminov	Functionality positive	Failed
T234	Check that on registration after inserting a phone number shorter than 10 digits, you are able to register after correcting to 10 digits phone number - bug	Shai Rakhminov	Functionality positive	Failed

T60	Check that when you type special characters (!@#\$) in first name and last name fields, it won't let you type - bug	Shai Rakhminov	Functionality negative	Failed
T61	Check that when you type numbers (example: 1234) in first name and last name fields, it won't let you type - bug	Shai Rakhminov	Functionality negative	Failed
T64	Check that you can't register with only 1 space input in ""First name"" field	Shai Rakhminov	Functionality negative	Passed
T65	Check that you can't register with only 1 space input in ""Last name"" field	Shai Rakhminov	Functionality negative	Passed
T66	Check that you can't register with only 1 space input in ""Phone"" field	Shai Rakhminov	Functionality negative	Passed
T67	Check that when you enter a different verification code, the system doesn't let you in and shows a relevant error code	Shai Rakhminov	Functionality negative	Passed
T68	Check that you are not able to register with a phone number shorter than 10 digits	Shai Rakhminov	Functionality negative	Passed
T69	Check that you are not able to register with a phone number longer than 10 digits	Shai Rakhminov	Functionality negative	Passed
T70	Check that when you click on ""Sign up with phone number"", you are not prompted to Gmail sign up	Shai Rakhminov	Functionality negative	Passed
T71	Check that when you click on ""Sign up with phone number"", you are not prompted to Apple sign up	Shai Rakhminov	Functionality negative	Passed
T235	Check that system doesn't allow to register when typing number or special characters in first and last name fields - bug	Shai Rakhminov	Functionality negative	Failed
T72	Check that when you leave the ""First name"" field empty, it won't let you continue	Shai Rakhminov	Boundary - negative	Passed

T73	Check that when you leave the ""Last name"" field empty, it won't let you continue	Shai Rakhminov	Boundary - negative	Passed
T74	Check that when you leave the ""Phone"" field empty, it won't let you continue	Shai Rakhminov	Boundary - negative	Passed
T75	Check that in ""Phone"" field, you can't enter more than 10 numbers	Shai Rakhminov	Boundary - negative	Passed
T76	Check that in ""Phone"" field, you can't enter special characters at all - bug	Shai Rakhminov	Boundary - negative	Failed
T77	Check that you can't register with 2 space input in ""First name"" and ""Last name"" fields - bug	Shai Rakhminov	Boundary - negative	Failed
T79	Check that you can't register with only 2 space input in ""Phone"" field	Shai Rakhminov	Boundary - negative	Passed
T151	Check that the button ""Sign up with phone number"" doesn't have spelling errors	Shai Rakhminov	Usability - UI	Passed
T152	Check that the button ""Sign up with phone number"" is in the correct font	Shai Rakhminov	Usability - UI	Passed
T153	Check that the button ""Sign up with phone number"" is in the correct font size	Shai Rakhminov	Usability - UI	Passed
T154	Check that the button ""Sign up with phone number"" is in the correct color	Shai Rakhminov	Usability - UI	Passed
T155	Check that ""Sign in with phone number"" box looks the same as the other sign up boxes	Shai Rakhminov	Usability - UI	Passed
T156	Check that the distance between the ""sign up with phone number"" box and the other 2 boxes is proportional	Shai Rakhminov	Usability - UI	Passed
T132	Check that the swipe gestures in sign-in page are smooth and comfortable	Shai Rakhminov	Sign in	Passed

T87	Check that when click on ""Sign in with Google""", it prompts you to sign in with your Google accounts	Shai Rakhminov	Functionality positive	Passed
T88	Check that when you choose one of your Google accounts, it signs you with the account you have chosen	Shai Rakhminov	Functionality positive	Passed
T89	Check that when you click on ""Sign in with Google""", it doesn't sign you with Apple account	Shai Rakhminov	Functionality negative	Passed
T90	Check that when you click on ""Sign in with Google""", it doesn't sign you with phone number	Shai Rakhminov	Functionality negative	Passed
T80	Check that the button ""Sign in with google"" has no spelling errors	Shai Rakhminov	Usability - UI	Passed
T81	Check that the button ""Sign in with google"" is in the correct font	Shai Rakhminov	Usability - UI	Passed
T82	Check that the button ""Sign in with google"" is in the correct font size	Shai Rakhminov	Usability - UI	Passed
T83	Check that the button ""Sign in with google"" is in the correct color	Shai Rakhminov	Usability - UI	Passed
T84	Check that the Google icon on the ""Sign in with Google"" button clearly represents the option to sign in with a Google account	Shai Rakhminov	Usability - UI	Passed
T85	Check that the Google icon on the ""Sign in with Google"" is in a proportional size	Shai Rakhminov	Usability - UI	Passed
T130	Check that ""Sign in with Google"" box looks the same as the other sign in boxes	Shai Rakhminov	Usability - UI	Passed
T131	Check that the distance between ""Sign in with Google"" and the Google icon is proportional	Shai Rakhminov	Usability - UI	Passed
T141	Check that the distance between the Google sign in box and the Apple one is proportional	Shai Rakhminov	Usability - UI	Passed

T86	Check that the Google icon on the ""Sign in with Google"" button clearly represents the option to sign in with a Google account	Shai Rakhminov	Usability - UX	Passed
T91	Check that you can enter a valid phone number in ""Phone"" field	Shai Rakhminov	Functionality positive	Passed
T92	Check that you are able to insert the code	Shai Rakhminov	Functionality positive	Passed
T93	Check that you can click on ""Confirm"" after inserting the code	Shai Rakhminov	Functionality positive	Passed
T94	Check that when you click on ""Send code again"", you get another code	Shai Rakhminov	Functionality positive	Passed
T95	Check that when you click on ""Change phone number"", you are prompted back to enter a new phone number	Shai Rakhminov	Functionality positive	Passed
T96	Check that you can sign in with a phone number without 0 in the beginning (547729045)	Shai Rakhminov	Functionality positive	Passed
T97	Check that prompted to OTP auth page after inserting a valid phone number	Shai Rakhminov	Functionality positive	Passed
T98	Check that you get an OTP code to the mobile phone of the number you entered	Shai Rakhminov	Functionality positive	Passed
T99	Check that you are able to login with the same phone number after sign out	Shai Rakhminov	Functionality positive	Passed
T100	Check that you can sign-in with a number using copy paste	Shai Rakhminov	Functionality positive	Passed
T101	Check that not able to insert special characters in ""Phone"" field on login page	Shai Rakhminov	Functionality negative	Failed
T102	Check that not able to continue when ""Phone"" field is empty	Shai Rakhminov	Functionality negative	Passed
T103	Check that not able to sign in when typing random numbers (1234567) in ""Phone"" field	Shai Rakhminov	Functionality negative	Passed

T104	Check that not able to sign in when entering OTP code wrong	Shai Rakhminov	Functionality negative	Passed
T105	Check that you are not able to sign in with phone number using numbers and special characters	Shai Rakhminov	Functionality negative	Passed
T106	Check that you are not able to sign in using illogical phone number (0000000000)	Shai Rakhminov	Functionality negative	Passed
T107	Check that you are not able to sign in using non-existent phone number (0530000000)	Shai Rakhminov	Functionality negative	Passed
T111	Check that the system doesn't allow to login when inserting OTP that is too short (3 digits instead of 4)	Shai Rakhminov	Functionality negative	Passed
T112	Check that you are not able to paste words in ""Phone"" field	Shai Rakhminov	Functionality negative	Failed
T227	Check that login page doesn't continue to OTP code page when inserting a non-existing phone number (0530000000) - bug	Shai Rakhminov	Functionality negative	Failed
T230	Check that system doesn't allow to sign in with an expired OTP code - bug	Shai Rakhminov	Functionality negative	Failed
T231	Check that you are not able to insert special characters on Login page in ""Phone"" field - bug	Shai Rakhminov	Functionality negative	Failed
T232	Check that you are not able to continue to OTP code when sign in with unregistered phone number	Shai Rakhminov	Functionality negative	Passed
T113	Check that you can't sign in using phone number with 9 digits (050123456)	Shai Rakhminov	Boundary negative	Passed
T114	Check that not able to sign in using 11 digit phone number	Shai Rakhminov	Boundary negative	Passed
T115	Check that not able to sign in using 11 digits and special characters	Shai Rakhminov	Boundary negative	Passed

T116	Check that not able to sign in using 9 digits and special characters	Shai Rakhminov	Boundary negative	Passed
T226	Check that the system doesn't allow to past emoji in phone field on login page - bug	Shai Rakhminov	Boundary negative	Failed
T133	Check that the text ""Or enter with phone number"" is with no spelling errors	Shai Rakhminov	Usability - UI	Passed
T134	Check that the text ""Or enter with phone number"" is in the correct font	Shai Rakhminov	Usability - UI	Passed
T135	Check that the text ""Or enter with phone number"" is in the correct text size	Shai Rakhminov	Usability - UI	Passed
T136	Check that the text ""Or enter with phone number"" is understandable	Shai Rakhminov	Usability - UI	Passed
T137	Check that the text ""Or enter with phone number"" is in the correct color and fits the background	Shai Rakhminov	Usability - UI	Passed
T138	Check that the field where you enter phone number is visible	Shai Rakhminov	Usability - UI	Passed
T139	Check that phone number field is available for typing in one click	Shai Rakhminov	Usability - UX	Passed
T140	Check that the input in the phone field can be typed smoothly without lags	Shai Rakhminov	Usability - UX	Passed
T354	Check that the system shows the correct error after typing an OTP code that is too short	Shai Rakhminov	Usability - UX	Failed
T179	Check that when you click on ""Everything"" section, it shows you every content in the app	Shai Rakhminov	Everything	Passed
T180	Check that when you click twice on ""Everything"" section, it remains on the same page	Shai Rakhminov	Everything	Passed
T181	Check when clicking rapidly on other sections	Shai Rakhminov	Everything	

	and getting back to ""Everything"" , the content is shown immediately			Passed
T182	Check when clicking rapidly on other sections and getting back to, ""Everything"" the button is selected fast with no lags	Shai Rakhminov	Everything	Passed
T183	Check that after applying filters, getting back to ""Everything"" resets the view and shows all content.	Shai Rakhminov	Everything	Passed
T184	Check that when dragging ""Everything"" button to the content area (downwards), the button doesn't move	Shai Rakhminov	Everything	Passed
T185	Check that when dragging ""Everything"" button to ""Content"" section (to the right side), the button doesn't move	Shai Rakhminov	Everything	Passed
T186	Check that when dragging ""Everything"" button to the search field area (upwards), the button doesn't move	Shai Rakhminov	Everything	Passed
T187	Check that when dragging ""Everything"" button to an empty place, the button doesn't move	Shai Rakhminov	Everything	Passed
T188	Check that when clicking multiple times on ""Everything"" button, the button remains the same and shows the same content	Shai Rakhminov	Everything	Passed
T189	Check that when the button remains clicked (for 10 seconds), the button remains the same and shows the same content	Shai Rakhminov	Everything	Passed
T190	Check the ""Everything"" button has no spelling errors	Shai Rakhminov	Everything	Passed
T191	Check that the font of ""Everything"" button is correct	Shai Rakhminov	Everything	Passed

T192	Check the ""Everything"" button is in a correct text size	Shai Rakhminov	Everything	Passed
T193	Check that the text of ""Everything"" button is in the right color	Shai Rakhminov	Everything	Passed
T194	Check that when click on ""Everything"" button, the color of the button matches the colors of the app	Shai Rakhminov	Everything	Passed
T195	Check the frame of ""Everything"" button matches the frames of the rest of the buttons on the upper toolbar	Shai Rakhminov	Everything	Passed
T196	Check that all sections in the upper toolbar are in the same text size	Shai Rakhminov	Everything	Passed
T197	Check that all sections in the upper toolbar are in the same color	Shai Rakhminov	Everything	Passed
T198	Check that all sections in the upper toolbar are in the same font	Shai Rakhminov	Everything	Passed
T199	Check that all sections in the upper toolbar are with no spelling errors	Shai Rakhminov	Everything	Passed
T200	Check that all sections in the upper toolbar are colored in the same color when chosen	Shai Rakhminov	Everything	Passed
T201	Check that the system gives an indication that the section has been chosen when choosing it	Shai Rakhminov	Everything	Passed
T202	Check that the sections are visible and readable	Shai Rakhminov	Everything	Passed
T203	Check that switching between sections provides smooth transitions	Shai Rakhminov	Everything	Passed
T204	Check that all section remain visible and clickable when scrolling the content	Shai Rakhminov	Everything	Passed
T157	Check that when you click on ""Home"" button, you are prompted to home page	Shai Rakhminov	Home	Passed
T158	Check that when you click again on ""Home"" button	Shai Rakhminov	Home	Passed

	when already there, you still remain there			
T159	Check that when you click on ""Home"" button from the main menu, it prompts you to the home page	Shai Rakhminov	Home	Passed
T160	Check that when you press multiple time on ""Home"" button, it keeps you in the home page	Shai Rakhminov	Home	Passed
T161	Check that when you long press on ""Home"" button, it keeps you in the same page	Shai Rakhminov	Home	Passed
T162	Check that you are not able to drag the ""Home"" to the right side (""Pros"" button)	Shai Rakhminov	Home	Passed
T163	Check that you are not able to drag the ""Home"" upwards (to the search field)	Shai Rakhminov	Home	Passed

Bug reports from Jira

[SPG-1] After uploading an image while Gig creation, the image is removed when clicking the image

Created: 16/Sep/25 **Updated:** 27/Sep/25

Status:	To Do		
Project:	STR Project - Gigit		
Components:	None		
Affects versions:	None		
Fix versions:	None		
Type:	Bug	Priority:	Medium
Reporter:	Shai Rakhminov	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Attachments:	 WhatsApp Video 2025-09-16 at 10.35.2
Severity:	Low
Description	

Steps to reproduce:

1. Sign in to your user
2. Click on the + icon on the right side near the search field
3. Fill in the necessary details in description page → click on upload images at the bottom
4. Click on Upload image → choose the relevant image
5. After the image has been uploaded, click on the image

Expected result: the image is not removed

Actual result: the image is removed

[SPG-2] System allows to register when typing numbers or special characters in first name and last name fields

Created: 18/Sep/25 Updated: 27/Sep/25

Status:	To Do
Project:	STR Project - Gigit
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Medium

Attachments:	 WhatsApp Video 2025-09-18 at 11.56.1
Severity:	Low
Description	

Steps to reproduce:

1. Click on “Sign up with phone number”
2. Type number or special characters in first and last name fields
3. Type you phone number in phone field
4. Click on “Next” button at the bottom of the page.

Expected result: the system doesn't allow you to continue the registration process and shows an error that only Hebrew or English words must be used.

Actual result: The system allows you to continue and register all the way.

[SPG-3] Filling in the detail fields when registering as a professional

Created: 18/Sep/25 Updated: 18/Sep/25

Status:	To Do
Project:	STR Project - Gigit
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Medium
Reporter:	Elad Zioni	Assignee:	Unassigned

Environment:	S21 Galaxy FE 5G		
Attachments:	 Screen Recording_20 250916_113544_GigIT.		
Severity:	Minor		

Description

Steps:

1. Log in to the application using your login details (e.g., personal mobile number)
2. Open the toolbar at the top right corner
3. Click on *Join as a Professional* — located on the left side of the toolbar
4. Click Next
5. Click on *Let's Get Started*
6. Go to the row with the title – Specialization
7. Click in the middle of the row or on the left side

Actual Result

No response from the application when trying to fill in the *Specialization* details.

Expected Result

Clicking anywhere on the row, in the *Specialization* field, should allow entering the data — not only when clicking on the right side of the row.

[SPG-4] Data is deleted when navigating to another page on mobile

Created: 18/Sep/25 Updated: 18/Sep/25

Status:	To Do
Project:	STR Project - Gigit

Original estimate:	Not Specified		

Attachments:	 Screen_Recording_20 250916_121823_GigIT.
Severity:	Major

Description

Steps:

1. Log in to the application.
2. Open the toolbar at the top right corner.
3. Click on *Join as a Professional*.
4. Click *Next*.
5. Click on *Let's Get Started*.
6. Go to the field under the title *Specialization*.
7. Enter data (e.g., "Ironing all types of fabrics").
8. Exit the application screen and switch to another app on the mobile device (e.g., WhatsApp).
9. Return to the application screen.
10. Go again to the row under the title *Specialization*.

Actual Result:

The data entered in the Specialization field is deleted.

Expected Result:

When switching to another page/app on the mobile device, the data already entered during the registration process should be retained, at least for a limited period of time, and not deleted immediately.

[SPG-5] On registration via phone number, when inserting phone number shorter than 10 digits, it wont continue registration even after inserting a valid number
